

Biological Basis of Best Academic Functioning

- teacher strategies in attention in learning
- nutritional neuroscience for optimized learning
- school lunch program foodscience analysis & redesign
- sensory scientific expertise: appetite, aroma & learning
- brain dynamics for learning and memory consolidation

SHINANTAM

Customized Classroom Environmental Science

- illumination science consulting & analysis
- classroom psychoacoustics : sound processing psychophysics, speech discrimination, reverberation, noise reduction & learning
- functional environmental calibration for improved learning focus, normalized student behavior, and optimized student academic success

Instructional Design Consulting

- visual psychophysics / modeling paradigms
- optimized sensory integration formulae
- customized educator guidance
- multi-modality synthesis
- individualized program design
